# LAGO VISTA VIEWS

[www.lagovistatexas.org](http://www.lagovistatexas.org) • November 2020

## How Your Winter Water Use Affects Your Sewer Rate

Your actual water usage during the months of November 2020, January 2021, and February 2021 is averaged to determine your sewer rates for your monthly bill. This is known as winter averaging rates.

These months are deliberately chosen because they tend to have the lowest consumption for most customers. The end result is that those who are conservative in their usage will pay less for sewer services. Those who use more water and place a greater burden on the treatment facilities will pay more.

New winter averaging rates will be calculated in April of 2021 and due on your bills beginning in May 2021.

If you have any questions regarding how your winter averaging rate is calculated, please feel free to call our utility user line at City Hall at **512.267.1155** anytime **Monday - Thursday, 7 a.m. - 6 p.m.**

## The History and Meaning of Veterans Day Wednesday, November 11

In November 1919, President Woodrow Wilson proclaimed November 11 as the first commemoration of Armistice Day (aka Veterans Day) with the following words: "To us in America, the reflections of Armistice Day will be filled with solemn pride in the heroism of those who died in the country's service and with gratitude for the victory, both because of the thing from which it has freed us and because of the opportunity it has given America to show her sympathy with peace and justice in the councils of the nations..."

Veterans Day continues to be observed on November 11, regardless of what day of the week it falls on. This is a day to honor America's veterans for their patriotism, love of country, and willingness to serve and sacrifice for the common good.

City crews will be working on a Valve Inspection & Maintenance project in the Southwest area of town and will continue to work towards the North and East sides of town for the remainder of this year. All too often, older valves do not properly function when the City has to repair a broken pipe. That can lead to a much larger water outage. Performing regular maintenance and identifying these broken or inoperable valves helps curb total water loss and lowers the amount of time it takes to restore service.

During the project there will be short intermittent water interruptions as crews exercise and test the main pipeline valves. The City does not anticipate the outages to last more than 30 minutes at any one time

on each pipe or street. Please monitor the City's Facebook page and website to note the dates of work and specific areas of town affected by the project.

As a result of water service interruptions, residents in the immediate vicinity of the work may experience a temporary discoloration of their water once service is restored. This discoloration is caused by air in the water mains and does not affect the safety of the water. If you experience this, clear air and deposits in the water pipes by running your water faucets for a minute or two.

## City's New Park is Named - Lago Vista Sunset Park

Lago Vista residents took part in an online poll to vote for their favorite choice of proposed names for the new City park located at 21817 FM 1431. The winner, receiving the most votes and announced at the October 15 City Council Meeting, is Lago Vista Sunset Park. Sunset Park is derived from the name of the piece of land the City purchased - Sunset Ranch. The 30-acre park will host ball fields, sand volleyball, a soccer field, scent garden, special events, and more. Construction of Phase 1 is underway. For more information, contact Parks and Recreation Director, Chris Mobley at 512.267.1155.
