1 October 2020

Dear Fellow Citizens of Lago Vista,

It is with great pleasure that I present to you the adopted Fiscal Year 2021 budget for the City of Lago Vista. The City of Lago Vista is moving forward efficiently and effectively on multiple fronts that will improve our City and create better pathways to live, work, play and raise a family.

This budget was developed by the City Council and staff with public comments from members of our community. This year, we implemented a new approach to budgeting that allowed for greater transparency throughout the process by using Cleargov.com. The Cleargov system allowed Citizens to follow the budget process online with real-time changes. Interested citizens could view the budget documents online at any time during the process. Our goal is to increase our transparency and to encourage more people to become involved in local government.

The FY21 budget is a continuation of the work that has been happening for the past three years. City Council voted to reduce the tax rate to \$.6475 per \$100, allocate funds from reserves to complete capital projects, complete Phase 2 of the new sports complex, repave \$2.8 million of City streets (including Lohman Ford), add additional staff to help navigate our growing population, and provide funds to increase our ability to serve our community.

The FY21 budget continues to focus on community enrichment opportunities such as the concert series, Art in Public Spaces, development of Town Square, and the expansion of our Municipal Library and City Hall. These programs and projects are vital in our efforts to encourage Citizen interaction and participation.

The approval of an operating budget is only step one in a year long process to make our community better. The fiscal year begins on October 1<sup>st</sup>. Once the year begins, our team will work diligently to complete all of the projects that have been planned for the year. We will utilize action plans to schedule projects in an effort to minimize the impact on the community. New positions will be hired, new equipment will be purchased, and services will be expanded.

Our Lago is getting better and better by the minute. Our streets are better, our utility systems are better, our communication is better, and our quality of life is better. We will continue to welcome new businesses into Lago this year and appreciate those businesses that already call Lago home. Our goal for the FY21 budget is to complete the projects that we have started and to plan for the future of our community.

I challenge all of our 8,130 Citizens to work together this year to make Our Lago better. I challenge each of us to overcome our differences with others to create a new social dynamic in our community. This challenge, when successful, will result in a new sense of community and civic pride that is far bigger than the Friday Night Lights or the Lights Over Lago. President Abraham Lincoln stated "I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him." Let's make Our Lago a place where our Citizens are proud to live and we are proud of our Citizens!

Sincerely,

A blue ink signature of Joshua W. Ray, which is a stylized, handwritten name enclosed within a decorative oval border.

Joshua W. Ray  
City Manager

## ORGANIZATIONAL CHART

# CITY OF LAGO VISTA

## 2020-2021 ANNUAL OPERATING BUDGET

---

This coversheet is submitted in compliance with Chapter 102 of the Local Government Code and Senate Bill 656 of the 83<sup>rd</sup> Texas Legislature:

This budget will raise more revenue from property taxes than last year's budget by an amount of (\$541,400), which is a (8.0443%) percent increase from last year's budget. The property tax revenue to be raised from new property added to the tax roll this year is (\$612,458).

### Record Vote on Adoption of the Budget

The Lago Vista City Council approved the 2020-2021 Budget on September 17, 2020 through a record vote of the Lago Vista City Council.

# **City of Lago Vista**

## **Fiscal & Budgetary Policy**

Adopted by City Council – September 17, 2020

# City of Lago Vista

## Fiscal and Budgetary Policy

Statutory Authorization: The following document provides a framework for fiscal stewardship of the City. It operates within the confines of 1) federal and state law, 2) city charter, and 3) city code of ordinances. Any conflict herein will be subordinate to those legal authorities.

Governance: The City Manager serves as the Chief Financial Officer (CFO) of the City and appoints a Director of Finance/Treasurer or similar position to oversee the administration of these policies.

### I. PURPOSE

The City of Lago Vista is committed to transparent financial management through integrity, prudent stewardship, planning, accountability, full disclosure and communication. The broad purpose of the Fiscal and Budgetary Policies is to enable the City to achieve and maintain a long-term stable and positive financial condition and provide guidelines for the day-to-day planning and operations of the City's financial affairs.

The scope of this policy generally spans areas of accounting and financial reporting, both operating and capital budgeting, revenue management, investment and asset management, debt management and forecasting, and a system of internal controls. This is done in order to:

- A. Demonstrate to the citizens of Lago Vista, the investment community, and the bond rating agencies that the City is committed to a strong fiscal operation;*
- B. Provide precedents for future policy-makers and financial managers on common financial goals and strategies;*
- C. Fairly present and fully disclose the financial position of the City in conformity to generally accepted accounting principles (GAAP);*
- D. Demonstrate compliance with finance-related legal and contractual issues in accordance with the Texas Local Government Code and other legal mandates; and*
- E. Ensure full transparency in the governance of public funds entrusted to the City Council and City staff to manage and protect.*

These policies will be reviewed and updated annually as part of the budget preparation process. Council members will separately adopt these policies through resolution.

## A. Funds Governed

The budgeted funds for the City of Lago Vista include:

Governmental Funds: General Fund which accounts for all financial resources except those required to be accounted for in another fund, and include basic governmental services, such as Police, Public Works and Parks functions among others.

Special Revenue Funds (SRF): Account for specific revenues that are legally restricted for specified purposes. The City currently budgets three SRF type funds: Hotel Occupancy Tax, Impact Fees, and Parkland Dedication.

Debt Service Fund: Is used to account for the payment of general long-term debt principal and interest.

Capital Project Funds: Used to account for the acquisition or construction of major capital facilities other than those financed by enterprise activities. A variety of project funds will be created based on the nature of the projects and the sources of funding.

Proprietary and Enterprise Funds: Include the City's "business like" activities including utility, golf, and aviation funds.

The City will also make use of sub-ledger 'accounts' as a basis for tracking restricted funds where administratively feasible. Those include:

Court – City Truancy Prevention Fees, State Court Cost Fees, Building Security Fees, Court Technology Fees, City Judicial Fees, and Juvenile Case Management Fees  
Police – School Crossing Guard, LEOSE, CAPCO, Bulletproof Vest  
Development Services – Escrow accounts

## B. Basis of Accounting and Basis of Budgeting

Generally Accepted Accounting Principles (GAAP) are the rules established by the Governmental Accounting Standards Board. The City will follow the standards in their annual financial reports on or by the designated effective reporting date.

The City accounts and budgets for all Governmental Funds using the modified accrual basis of accounting. This basis means that revenue is recognized in the accounting period in which it becomes available and measurable, while expenditures are recognized in the accounting period in which they are incurred. Because the appropriated budget is used as the basis for control and comparison of budgeted and actual amounts, the basis for preparing the budget is the same as the basis of accounting. Exceptions to the modified accrual basis of accounting include:

- *Encumbrances, which are treated as expenditures in the year they are encumbered, not when expended;*
- *Grants, which are considered revenue received; and*
- *Principal and interest on long-term debt, which are recognized when paid.*

General government funds include the general fund, special revenue funds, debt service fund and general capital project funds.

Proprietary Funds, which include the Utility Fund are accounted for and budgeted using the full-accrual basis of accounting. Under this method, revenues are recognized when they are earned and measurable, while expenses are recognized when they are incurred regardless of timing or related cash flows. The basis for preparing the budget is the same as the basis of accounting except for the following:

- *Principal payments on long-term debt and capital outlay, which are treated as budgeted expenses;*
- *Depreciation which is not budgeted; and*
- *Non-budgeted accruals such as compensated absences.*

Year-end comparisons of budget to actual will appear in the financial statements of the City, at a minimum for those funds identified as major funds in the audit process.

## II. OPERATING BUDGET

Budgeting is an essential element of the financial planning, control and evaluation process of municipal government. The “operating budget” is the City’s annual financial operating plan. The annual budget includes all of the operating departments of the general fund, proprietary funds, debt service funds, special revenue funds, and capital improvement funds of the City.

### A. Comprehensive/Strategic Planning

The Lago Vista “Comprehensive Plan” is the City’s comprehensive plan to preserve, promote and protect public health and general welfare, prevent overcrowding, ensure adequate transportation, availability of necessary utilities and services, and conserve and protect the City’s natural resources. The City’s budget is the Annual Operating Plan element of the Comprehensive Plan.

The Comprehensive Plan is founded on strategic objectives or "policy areas" that are reviewed at least every five years. Funding of City programs should be based upon the objectives set forth in the Master Plan.

The City Charter and the Comprehensive Master Plan describe the budget process as an integral planning tool, suggesting the City plan for both five and one year time horizons. They recommend the budget be focused on these areas and significantly in consonance with the goals and objectives outlined in the comprehensive plan.

## B. Preparation

The Charter (Section 8.02) requires "The City Manager, prior to August first of each year, shall submit to the Council a proposed budget for the ensuing fiscal year and an accompanying budget message." The budget shall provide "a complete financial plan for all City funds and activities for the ensuing fiscal year. It shall contain all items and contents required by State law. The total of proposed expenditures shall not exceed the total of estimated income plus any accumulated surplus." The City Council shall, after holding public hearings as required by State law, adopt the budget by ordinance no later than the 30th day of September. If it fails to adopt the budget by September 30th, the budget as proposed by the City Manager shall go into effect until such time as the Council adopts a budget.

## C. Proposed Budget

A proposed budget shall be prepared by the City Manager with the participation of all City Department Heads that is within the provisions of the Charter and in consonance with the guidance contained in the Comprehensive Master Plan.

**1. Elements.** The budget shall include the following basic segments for review and evaluation:

- *Budget Message*
- *General Fund*
- *Utility Fund*
- *Capital Improvement Funds*
- *Hotel Occupancy Fund (HOT)*
- *Debt Service Fund & Investments*
- *Aviation Fund*
- *Golf Fund*
- *Park Fund*
- *Water & Sewer Impact Fee Fund*
- *Section 8.04(b) requires itemized budget by department and agency*

**2. Review.** The budget review process will include provisions for City Council participation, including sufficient time to address policy and fiscal issues, and citizen input through the use of public hearings.

**3. Distribution.** A copy of the proposed budget will be filed with the City Secretary at the time it is submitted to the City Council. A copy will also be available at City Hall and the Public Library for citizen review. It will also be posted on the city website as required.

**4. Notifications.** Public notifications, distribution, including the language incorporated and the methods by which the public gains access to the budget will be governed by

state law in effect at that time. State laws affecting the budget and the tax rate include provisions from both the Local Government Code, as well as the Tax Code.

#### D. Adoption

Prior to finalization of the budget appropriations, the City Council will hold at least one public hearing, and subsequently adopt the final budget as amended by Ordinance. The budget will be effective for the fiscal year beginning October 1st.

At the City Manager's discretion, the Annual Operating Plan document may be submitted to the Government Finance Officers Association (GFOA) for evaluation and consideration for the Distinguished Budget Presentation Award.

#### E. Balanced Budget

The goal of the City is to balance the operating budget with current revenues, whereby, current revenues would match and fund on-going expenditures/expenses. Excess balances in the operating funds from previous years could be used for non-recurring (one-time only) expenditures/expenses or for capital outlay based upon the recommendation of the City Manager and determination by the Council.

#### F. Planning

The budget process will be coordinated so that major policy issues are identified prior to the budget approval date. This will allow City Council adequate time for consideration of appropriate decisions and analysis of financial impacts. A budget calendar will be submitted by the City Manager outlining the major steps in the process and the opportunities for City Council review and citizen input.

Outstanding encumbrances will expire if not spent in encumbered year and will have to be re-appropriated.

#### G. Reporting

Summary financial reports will be presented to the City Council on a monthly basis. These reports will be in a format appropriate to enable the City Council to understand the overall budget and financial status. Quarterly reports will also be provided as needed which contain updates on the status of projects and related financial goals set forth in the budget and if determined necessary, may also include appropriate budget amendment recommendations.

## H. Control and Accountability

Each Department Head, appointed by the City Manager, should be responsible for the administration of his/her departmental budget. This includes accomplishing the Goals and Objectives adopted as part of the budget and monitoring of their portion of the budget for compliance with spending limitations. The City Manager may transfer any unencumbered funds within a departmental budget category (personnel costs, operations and maintenance or capital) and shall report such transfers to the Council in writing in a timely manner. All other transfers of appropriation or budget amendments require City Council approval as outlined in Section I.

## I. Budget Amendments

The Charter (Section 8.06) provides a method for budget amendments and emergency appropriations. The City Council may authorize, through a majority vote, an emergency expenditure as an amendment to the original budget. This may be done in cases of grave public necessity or to meet an unusual and unforeseen condition that was not known at the time the budget was adopted. In practice, this has been interpreted to include revenue-related expenses within the enterprise funds and timing differences on capital improvement projects. The following criteria will be used in evaluation of budget amendments:

- *Is the request necessary?*
- *Why was the item not budgeted in the normal budget process?*
- *Why can't a transfer be done within the budget to remedy the condition?*

The City Manager must certify availability of revenues or funding sources prior to adoption. The City will amend the budget at year end, if needed, for revenue based expenditures that exceeded budgeted amounts due to increased revenue and recognize any grant funded expenditures for grants received after the budget was adopted or last amended. The City Council may also amend the budget, if necessary, as part of the Mid-Year Review process for any capital project timing adjustments from prior year, as well as, any other known adjustments needed and approved at that time.

## J. Contingency Appropriations

The budget may include contingency appropriations within designated operating department budgets. These funds are used to offset expenditures for unexpected maintenance or other unanticipated expenses that might occur during the year.

## K. Manager's Contingency Account

The budget may also include a set amount of contingency appropriations within the Administration Budget to be spent at the discretion of the City Manager. These funds may be

used to offset expenditures for unexpected purchases and other unanticipated expenses that might occur during the year. The specific amount of contingency funds included in the budget shall be set by the City Council through the adoption of the annual budget.

### III. REVENUE MANAGEMENT

#### A. Characteristics

The City will strive for the following optimum characteristics in its revenue system:

1. **Simplicity** – The City, where possible and without sacrificing accuracy, will strive to keep the revenue system simple in order to reduce compliance costs for the taxpayer or service recipient.
2. **Certainty** – A knowledge and understanding of revenue sources increases the reliability of the revenue system. The City will understand its revenue sources and enact consistent collection policies to provide assurances that the revenue base will materialize according to budget.
3. **Equity** – The City will make every effort to maintain equity in its revenue system; i.e., the City should seek to minimize or eliminate all forms of subsidization between entities, funds, services, utilities, and customer classes.
4. **Revenue Adequacy** – The City should require there be a balance in the revenue system; i.e., the revenue base will have the characteristics of fairness and neutrality as it applies to cost of service, willingness to pay, and ability to pay.
5. **Realistic and Conservative Estimates** - Revenues will be estimated realistically and conservatively, taking into account the volatile nature of various revenue streams.
6. **Administration** – The benefits of a revenue source should exceed the cost of levying and collecting that revenue.
7. **Diversification and Stability** – A diversified revenue system with a stable source of income is preferred. This will help offset instabilities in revenue sources with large fluctuations due to the economy (sales tax) and variations in the weather (water sales, golf rounds).

## **B. Other Considerations**

The following considerations and issues should guide the City in its revenue policies concerning specific sources of funds:

- 1. Cost/Benefit of Incentives for Economic Development** – The City will use due caution in the analysis of any incentives that are used to encourage development. A cost/benefit (fiscal impact) analysis will be performed as part of the evaluation.
- 2. Non-Recurring Revenues** – One-time or non-recurring revenues should not be used to finance current ongoing operations. Non-recurring revenues should be used only for non-recurring expenditures and not for budget balancing purposes.
- 3. Property Tax Revenues** – All real and business personal property located within the City will be valued at 100% of the fair market value for any given year based on the current appraisal supplied by the Travis County Appraisal District. Conservative budgeted revenue estimates result in a projected ninety-eight percent (98%) budgeted collection rate for current ad valorem taxes. Two percent (2%) of the current ad valorem taxes will be projected as the budget for delinquent ad valorem tax collection. For budgeting purposes, the City will forecast the current year's effective tax rate at the current collection rate of 100%, unless directed otherwise.
- 4. Interest Income** – Interest earned from investments will be distributed to the funds based on their allocated investments, unless otherwise required by statute or determined by the City Council.
- 5. User-Based Fees and Service Charges** – The City Council will determine how much of the cost of a service should be recovered by fees and charges. A fee can be driven by a cost-recovery approach, such that a service is identified into one of the following categories:
  - Partial Cost Recovery – only a stated portion of the direct costs of services will be recovered from fees. These are for such services as library, parks, public safety and other services where a general benefit ensues to the citizenry as a whole and specific users cannot be easily ascertained or charged.
  - Direct Cost Recovery – applies to all direct costs (operating and personnel) in the exchange for a service that is directly beneficial to a particular user. Such services as recreation classes, sports leagues, copying costs, etc. These services gain the benefit of building, facility, and capital use as well as overhead support that are not expected to be captured in a fee.
  - Full Cost Recovery – applies to all direct operating costs, as well as administrative and capital overhead in the course of providing a service that is uniquely identifiable to a customer who exclusively benefits from that service. Those services would entail all utility programs, and related services. Full cost

would capture debt burden, capital costs, overhead fees, as well as personnel and operating expenses.

The City will review fees and charges no less than once every three years to ensure that fees provide adequate coverage for the cost of services.

**6. Utility Fund Rates** – The City annually reviews and adopts utility rates as needed to generate revenues required to attempt to cover operating expenses, meet the legal requirements of all applicable bond covenants, debt service, and provide for an adequate level of working capital for cash flows. Additionally, utility activity rates will consider transfers to other funds as follows:

- a) General and Administrative Charges – Administrative costs should be charged to all funds for services of general overhead, such as administration, finance, customer billing, legal and other costs as appropriate. These charges will be determined through an indirect cost allocation following accepted practices and procedures.
- b) In-Lieu-of-Franchise-Fee. This potential transfer, currently between 2% and 4% of operating revenues, is consistent with the franchise rates charged to investor owned utilities that are franchised to operate within the City.

**7. Intergovernmental Revenues** – All potential grants will be examined for matching requirements and must be approved by the City Manager prior to making application for the grant. It must be clearly understood that operational requirements (on-going costs) set up as a result of a grant program could be discontinued once the term and conditions of the program have been completed. The department filing the grant application will notify Finance at the point of application and will ensure that the grant is set up appropriately for reimbursement or award, depending on the nature of the grant.

**8. Revenue Monitoring** – Revenues, as they are received, will be regularly compared to budgeted revenues and any variances should be investigated.

- Revenues will be monitored by Fund. It is understood that many of the City's revenues are seasonal in nature or are reported to the City on a quarterly basis.
- For the Enterprise Funds, all revenues will be tracked on a monthly basis for comparison purposes.
- As necessary, an item will be placed on the City Council agenda to discuss the status of revenues. All revenues will continue to be included in the financial reports presented to Council monthly.

## IV. EXPENDITURE POLICIES

### A. Appropriations

The point of budgetary control is at the department level budget for all funds. The Charter (Section 8.06) provides that any transfer of appropriation between funds must be approved by the City Council and that the City Manager, without City Council approval, is authorized to transfer appropriations within departments.

Further, the budget is controlled by the authorized positions in the adopted budget. No changes can be made to the number of authorized positions without City Council approval.

### B. Purchasing

All purchases of goods or services by the City will be made in accordance with state law and the following guidelines. All purchasing decisions shall be made in accordance with the Annual Budget or Capital Budget as approved by the City Council. The purchase of items not included in the Annual or Capital Budget less than \$50,000 shall require approval from the City Manager. The purchase of items not included in the Annual or Capital Budgets in excess of \$50,000 shall require the approval of the City Council. All contracts greater than \$50,000 shall be approved by the City Council. Emergency purchases in excess of \$50,000 will be limited to incidents that threaten public health, safety or damage to persons or property or in those situations in which inaction shall present a substantial financial loss to the City. All emergency purchases shall be submitted to the City Council for ratification. The following shows a summary of approval requirements for purchases.

#### APPROVAL REQUIREMENTS FOR PURCHASES:

1. The City Manager shall determine the purchasing authority limits of all Department Heads and other employees on a case-by-case basis; however, under no circumstances shall that authority exceed \$5,000.
2. Department Heads shall determine the purchasing authority of subordinate employees on a case-by-case basis; however, under no circumstances shall that authority exceed \$500.

### C. Prompt Payment

All invoices approved for payment by the proper City authorities shall be paid within thirty (30) calendar days of receipt of goods or services or invoice date, whichever is later in accordance with State law. The City will take advantage of all purchase discounts, when possible.

## D. Risk Management

The City will pursue every opportunity to provide for the public's and City employees' safety and to manage its risks. The goal shall be to minimize the risk of loss of resources through liability claims with an emphasis on safety programs.

## **V. BUDGET CONTINGENCY PLAN**

This policy is designed to establish general guidelines for managing revenue shortfalls resulting from local and national economic downturns or other issues that adversely affect the City's revenue streams of all funds.

### A. Immediate Action

Once a budgetary shortfall is projected, the City Manager will take the necessary actions to offset any revenue shortfall with a reduction in current expenses. The City Manager may:

- *Freeze all new hire and vacant positions except those deemed to be a necessity by the City Manager;*
- *Review all planned capital expenditures; and/or*
- *Delay all "non-essential" spending or equipment replacement purchases.*

### B. Further Action

If the above actions are insufficient to offset the revenue deficit and the shortfall continues to increase, the City Manager will further reduce operating expenses to balance the variance. Any resulting service level reductions, including workforce reductions, will be brought to the City Council for direction and determination.

## **VI. CAPITAL IMPROVEMENT PROGRAM (CIP) BUDGET**

The City's goal is to maintain City facilities and infrastructure in order to provide excellent services to the customers within the community, meet growth related needs, and comply with all state and federal regulations.

### A. Preparation

The City annually updates and adopts a five-year Capital Improvement Program (CIP) schedule as part of the operating budget adoption process. The plan is reviewed and adjusted annually as needed, and year one is adopted as the current year capital budget. The capital budget will include all capital projects, capital resources, and estimated operational impacts. Priorities for Capital Improvements should consider:

- *Needed capital improvements should be identified through system models, repair and maintenance records and growth demands.*
- *Economic development projects that have capital infrastructure needs should be reviewed and approved for funding by the City to be included in the CIP process or subsequent amendment.*
- *A team approach will be used to prioritize CIP projects, whereby City staff from all operational areas provide input and ideas relating to each project and its effect on operations.*
- *Citizen involvement and participation may be solicited in formulating the capital budget through public hearings and other forums.*

In cases where CIP requirements vary, such as impact fees (with 10-year planning windows and a specialty review process), the City will abide by those requirements.

#### B. Control

All capital project expenditures must be appropriated in the capital budget. Availability of resources must be identified before any CIP contract is presented to the City Council for approval.

#### C. Financing Programs

Where applicable, assessments, impact fees, pro rata charges, or other fees should be used to fund capital projects which have a primary benefit to specific identifiable property owners.

Recognizing that long-term debt is usually a more expensive financing method, alternative-financing sources will be explored before debt is issued. See Sections X and XI. Short-term financing including Capital Leasing and other tax-supported obligations can be used to fund vehicles, computers and other operating equipment if the impact to the tax rate is minimal.

## VII. CAPITAL MAINTENANCE AND REPLACEMENT

The City recognizes that deferred maintenance increases future capital costs. Therefore, a portion of all individual funds with infrastructure should be budgeted each year to maintain the quality within each system.

#### A. Infrastructure Maintenance

On-going maintenance costs are included as operating or capital expense within the departmental operating budgets. These costs are generally considered system repairs and are not capitalized for accounting purposes. They include such items as street seal coat, water line

repairs and other general system maintenance. Staff will prepare a street maintenance budget for Council's consideration during the budget process.

#### B. Internal Service Funds

The City may utilize internal service funds to maintain and replace existing assets. Assessments are to be made to the "using" department for the use of current equipment and items to be purchased during the year. In this way, suitable funds should be accumulated and available for the purchase of operational assets with minimal issuance of debt. A systematic methodology will guide the calculation of the department charges.

### **VIII. ACCOUNTING, AUDITING AND FINANCIAL REPORTING**

#### A. Accounting

The City is solely responsible for the recording and reporting of its financial affairs, both internally and externally. The City Manager is the City's Chief Financial Officer and is responsible for establishing the structure for the City's Chart of Accounts and for assuring that procedures are in place to properly record financial transactions and report the City's financial position.

#### B. Audit of Accounts

In accordance with the City Charter, an independent audit of the City's accounts will be performed every year. The auditor may be recommended by the City Manager but is retained by and is accountable directly to the City Council.

#### C. Internal Reporting

The Finance Department will prepare monthly internal financial reports, sufficient to plan, monitor and control the City's financial affairs.

#### D. External Reporting

The Finance Department will be responsible for preparing the annual financial report by January 31st of each year [Charter IV(f)], or as timely thereafter as possible.

## IX. ASSET MANAGEMENT

### A. Cash Management and Investments

The City must comply with the requirements of the Public Funds Investment Act (PFIA), Section 2256 of the Texas Local Government Code. A separate Investment Policy will be reviewed annually by the City Council and applies to all financial cash and investments held by the City.

**1. Statement of Cash Management Philosophy** - The City shall maintain a comprehensive cash management program to include the effective collection of all accounts receivable, the prompt deposit of receipts to the City's depository, the prompt payment of obligations, and the prudent investment of idle funds in accordance with this policy.

- Cash handling procedures will be coordinated through the Finance Department and all personnel handling cash, checks, or customer payments will be required to take applicable training. Such training will cover PCI compliance and red flag rules as applicable.
- Financial Procedures will outline that bank reconciliations will be performed monthly immediately after statements are processed by the bank; discrepancies will be researched and corrected immediately.

**2. Objectives** – The City's investment program will be conducted as to accomplish the following, listed in priority order:

- *Safety of the principal invested*
- *Liquidity and availability of cash to pay obligations when due*
- *Receive the highest possible rate of return (yield) consistent with the City's investment policy.*

**3. Safekeeping and Custody** – Investments may only be purchased directly by the City or through brokers/dealers who meet the criteria detailed in the investment policy, which also addresses internal controls related to investments.

**4. Standard of Care and Reporting** – Investment will be made with judgment and care, always considering the safety of principal to be invested and the probable income to be derived. The City Manager is responsible for the overall management of the City's investment program and ensures all investments are made in compliance with the investment policy. An investment report, providing both summary and detailed information, will be presented to the City Council quarterly.

## B. Fixed Assets & Inventory –

These assets will be reasonably safeguarded and properly accounted for, and prudently insured when required by law.

**1. Capitalization Criteria** – Capitalization is defined as the point at which an item gets recorded as an asset instead of expense. For purposes of budgeting and accounting classification assets meeting all of the following criteria must be capitalized:

- *The asset is owned by the City.*
- *The expected useful life of the asset must be longer than one year, or extend the life of an identifiable existing asset by more than one year.*
- *The original cost of the asset must be at least \$5,000.*
- *The asset must be tangible.*
- *On-going repairs and general maintenance are not capitalized.*

**2. New Purchases** – All costs associated with bringing the asset into working order should be capitalized as part of the asset cost. This may include start-up costs, engineering or consultant type fees as part of the asset cost once the decision or commitment to purchase the asset is made. The cost of land acquired should include all related costs associated with its purchase. The land will be recorded as a non-depreciable asset while improvements will be considered depreciable.

**3. Improvements and Replacement** – Improvements will be capitalized when they extend the original life of an asset or when they make the asset more valuable than it was originally. The replacement of an asset's components will normally be expensed unless they are a significant nature and meet all the capitalization criteria.

**4. Contributed Capital** - Infrastructure assets received from developers or as a result of annexation or other dedications will be recorded as equity contributions when they are received and depreciated the same as city funded assets. The City will not accept dedications from home-owners association or other similar property owners without full review and consideration of the ongoing maintenance costs of those assets.

**5. Distributions Systems** - All costs associated with public domain assets, such as streets and utility distribution lines will be capitalized in accordance with the capitalization policy. Costs should include engineering, construction and other related costs including right of way acquisition.

**6. Reporting and Inventory** – The Finance department will maintain the permanent records of the City's fixed assets, including description, cost, department of responsibility, date of acquisition, depreciation and expected useful life. Periodically, random sampling at the department level will be performed to inventory fixed assets assigned to that department. Responsibility for safeguarding the City's cash and fixed assets lies with the department supervisor or manager whose department has been assigned the asset.

**7. Inventory and Control** – The Finance department maintains an inventory with descriptions, dates and amounts and has the authority to conduct periodic inventory audits of any city assets, including equipment, cash or other city owned property. Assets assigned to individuals such as cars, computers, and phones must be itemized and returned to city control upon replacement or termination.

**8. Disposal** – City assets may be disposed if they are considered: too costly to repair, obsolete, or no longer functional. For any items with a residual value, the City will dispose of assets through public auction or sealed bid, either directly or through a cooperative effort. If an asset originally cost less than \$5,000, the manager may dispose of it through auction. If an asset cost more than \$5,000 or is being disposed of through a sealed bid, the City Council must approve it.

## X. DEBT MANAGEMENT

The City of Lago Vista recognizes that the primary purpose of capital facilities is to provide services to the community. Using debt financing to meet the capital needs of the community must be evaluated according to efficiency and equity. Efficiency must be evaluated to determine the highest rate of return for a given investment of resources. Equity is resolved by determining who should pay for the cost of capital improvements.

In meeting demand for additional services, the City will strive to balance the needs between debt financing and “pay as you go” methods. The City realizes that failure to meet the demands of growth may inhibit its continued economic viability, but also realizes that too much debt may have detrimental effects on the City’s long-range financial condition.

The City will issue debt only for the purpose of acquiring or constructing capital assets for the general benefit of its citizens, or the utility system expansion and upgrades and to allow it to fulfill its various purposes as a city.

### A. Usage of Debt

Long-term debt financing will be considered for non-continuous capital improvements of which future citizens will be benefited. Alternatives for financing will be explored prior to debt issuance and include, but are not limited to:

- *Grants*
- *Use of Reserve Funds*
- *Use of Current Revenues*
- *Contributions from developers and others*
- *Leases*
- *Impact Fees*

When the City utilizes long-term financing, it will ensure that the debt is soundly financed by conservatively projecting revenue sources that will be used to pay the debt. It will not finance the improvement over a period greater than the useful life of the improvement and it will determine that the cost benefit of the improvement, including interest costs, is positive to the community.

The City may utilize the benefits of short-term debt financing to purchase operating equipment provided the debt doesn't extend past the useful life of the asset, and the potential impact to the tax rate is within policy guidelines.

## B. Types of Debt

**1. General Obligation Bonds (GO's)** – Original issue General Obligation bonds must be authorized by a vote of the citizens of Lago Vista. They are used only to fund capital assets of the general government and are not to be used to fund operating needs of the City. The full faith and credit of the City as well as the City's ad valorem taxing authority back general obligation bonds within limits of state law for taxing authority. Conditions for issuance of general obligation debt include:

- *When the project will have a significant impact on the tax rate;*
- *When the project may be controversial even though it is routine in nature; or*
- *When the project falls outside the normal bounds of projects the City has typically done.*

As needed, the city will prepare Bond Propositions and the City Council will approve any election items and will set election dates in accordance with state law. The Finance Department will track all authorized propositions, the related debt issues and projects for those authorizations, and all remaining amounts approved but unissued.

**2. Revenue Bonds** – Revenue bonds may be issued to provide for the capital needs of any activities where the capital requirements are necessary for the continuation or expansion of a service. The improved activity shall produce a revenue stream to fund the debt service requirements of the necessary improvement to provide service expansion. The final maturity of the obligation should not exceed the useful life of the asset(s) to be funded by the bond issuance and will generally be limited to no more than twenty (20) years.

**3. Certificates of Obligation, Contract Obligations (CO's)** – Certificates of obligation or contract obligations may be used to fund capital requirements that are not otherwise covered either by general obligation or revenue bonds. Debt service for CO's may be paid either from general revenues (tax-supported) or supported by a specific revenue stream(s) or a combination of both provided, however, that the I&S tax provides alternate security for the repayment of COs as required by State law. Typically, the City may issue CO's when the following conditions are met:

- *When the proposed debt will have minimal impact on future effective property tax rates;*
- *When the projects to be funded are within the normal bounds of city capital requirements, such as for roads, parks, various infrastructure and City facilities; and*
- *When the average life of the obligation does not exceed the useful life of the asset(s) to be funded by the issuance.*

Certificates of obligation will be used with prudent care and judgment by the City Council. Notice of Intent to Issue COs will conform to state law requirements.

**4. Self-supporting General Obligation Debt** – Refers to general obligation debt issued for a specific purpose and repaid through dedicated revenues other than ad valorem taxes; however, the I & S tax is still pledged by law. The annual debt requirements are not included in the property tax calculation.

**5. Internal borrowing between City funds** – The City can authorize use of existing long-term reserves as “loans” between funds. The borrowing fund will repay the loan at a rate consistent with current market conditions. The loan will be repaid within 18 months. The loan will be considered an investment of working capital reserves by the lending fund.

**6. Tax Notes** - In accordance with Chapter 1431 of the Texas Local Government Code the City may authorize the issuance of Tax Notes for construction of public works, the acquisition of land, buildings, equipment, machinery, and related professional services and operating expenses. The maximum term of such notes shall be 7 years except for operating expense which shall have a maximum term of 1 year.

### C. Method of Sale

The City will use a competitive bidding process in the sale of bonds unless conditions in the bond market or the nature of the issuance warrant a negotiated sale. In such situations, the City will publicly present the reasons for the negotiated sale. The City will rely on the recommendation of the financial advisor in the selection process of the underwriter or direct purchaser.

### D. Disclosure & Federal Requirements

Full disclosure of operating costs along with capital costs will be made to the bond rating agencies and other users of financial information for an anticipated bond issuance. The City staff, with assistance of the financial advisor and bond counsel, will prepare the necessary materials for presentation to the rating agencies and will aid in the production of the

Preliminary Official Statements. The City will take responsibility for the accuracy of all financial information released.

The City will maintain procedures to comply with its continuing disclosure requirements, through the MSRB “EMMA” program, as well as any arbitrage rebate and other Federal requirements.

The City can contract with an external service provider to assist with continuing disclosure requirements as well as rebate calculations due to the expertise required, the complexity of the law or calculation, and the magnitude of risk for non-compliance.

#### [F. Debt Structuring](#)

The City will issue bonds with the final maturity not to exceed the useful life of the asset acquired. Market factors, such as the effects of tax-exempt designations, the cost of early redemption options and the like, will be given consideration during the structuring of long-term debt instruments. Efforts will be made to minimize the effect of large deferrals or ‘balloon note’ type structures.

#### [G. I&S Accounting](#)

City Charter section 8.12 requires a separate “account” for the City’s interest and sinking fund, referred to as the Debt Service account.

#### [H. Reimbursement Resolutions](#)

The City will utilize reimbursement resolutions as a tool to manage its debt issues, due to arbitrage requirements and project timing (but not market driven reasons). In so doing, the City uses its capital reserve "cash" to delay bond, note and CO issues until such time when issuance is favorable and beneficial to the City. The City Council may authorize a reimbursement resolution for General Capital projects that have a direct impact on the City's ad valorem tax rate when the bonds, notes and COs will be issued within the term of the existing City Council.

#### [I. Subject Matter Experts and Advisors](#)

The City will select a financial bond advisor to assist with the issuance and monitoring of debt activities. The financial advisor will recommend other parties to use as bond counsel, rating agencies, paying agents, escrow agents and others involved in a transaction. The City will designate the financial advisor in such a manner to allow investors and underwriting firms to participate in a bond transaction, in accordance with the federal municipal advisor rule.

## **XI. OTHER FUNDING ALTERNATIVES**

When at all possible, the City will research alternative funding opportunities prior to issuing debt or increasing user-related fees.

### **A. Grants**

All potential grants will be examined for any matching requirements and the source of those requirements identified. A grant funding worksheet that clearly identifies funding sources, outcomes and other relevant information will be approved by the City Manager prior to any grant application being submitted. It must be clearly understood that any resulting operation requirements of the grant could be discontinued once the term and conditions of the project have been terminated. The City Council must authorize acceptance of any grant funding.

### **B. Use of Reserve Funds**

The City may authorize the use of reserve funds to potentially delay or eliminate a proposed bond issuance. This may occur due to higher than anticipated fund balances in prior years, thus eliminating or reducing the need for debt proceeds, or postpone a bond issuance until market conditions are more beneficial or timing of the related capital improvements does not correspond with the planned bond sale. Reserve funds used in this manner can be replenished upon issuance of the proposed debt provided a reimbursement resolution is promptly adopted.

### **C. Developer Contributions**

The City will require developers who negatively impact the City's utility capital plans to offset those impacts.

### **D. Leases**

The City may authorize the use of lease financing for certain operating equipment when it is determined that the cost benefit of such an arrangement is advantageous to the City.

### **E. Impact Fees**

The City will impose impact fees as allowable under state law for both water and wastewater services. These fees will be calculated in accordance with statute and reviewed at least every five years. All fees collected will fund projects identified within the Fee study and as required by state laws.

## XII. FINANCIAL CONDITIONS AND RESERVES

The City of Lago Vista will strive to maintain budgeted minimum reserves in the ending working capital/fund balances to provide a secure, healthy financial base for the City in the event of a natural disaster or other emergency, allow stability of City operations should revenues fall short of budgeted projections and provide available resources to implement budgeted expenditures without regard to actual timing of cash flows into the City.

### A. Operational Coverage

The City's goal is to maintain operations coverage of 1.00-1.25, such that operating revenues will at least equal or exceed current operating expenditures. Deferrals, short-term loans, or one-time sources will be avoided as budget balancing techniques.

### B. Operating Reserves

Operating Reserves are generally considered as the Unassigned Portion of Fund Balance for Governmental Funds. GASB #54 outlines the categories of Fund Balance and the appropriate definitions.

1. ***Non-Spendable Fund Balances*** are amounts of the City's fund balance that are:
  - i. not in a spendable form including inventory and prepaid items,
  - ii. cannot be converted to cash within the current period including long-term portion of loans receivable and non-financial assets held for resale, or
  - iii. are required to be maintained intact pursuant to legal or contractual requirements including an endowment or permanent fund.
2. ***Restricted Fund Balances*** are amounts of the City's fund balance that reflect resources that are subject to externally enforceable legal restrictions including those imposed by:
  - i. Creditors (through debt covenants),
  - ii. Grantors,
  - iii. Contributors, and
  - iv. Other government's legislation or regulations.

Restricted special revenue funds/accounts of the City include Public Safety & Courts, Hotel Occupancy (Bed Tax). Other restricted funds include all capital bond funds, impact fee funds, and the General Debt Service Fund.

3. ***Committed Fund Balances*** are the amounts of the City's fund balances that represent resources that are constrained by limitations of the City Council and that remain binding unless removed, modified, or rescinded by the City Council prior to the last day of the fiscal year for which the commitment is made. Committed funds include the Reserve Funds and Parks Fund.
4. ***Assigned Fund Balances*** are those amounts of the City's fund balances that reflect the government's intended use of resources. This would include any future appropriation amounts of fund balances. The City Council has authorized the City

Manager as the official authorized to assign fund balance to a specific purpose but retains the power of final appropriation of those funds.

5. ***Unassigned Fund Balance*** are those amounts of the City's fund balances that are in excess of what can properly be classified in one of the previous four categories. These funds are available for any purpose. Unassigned fund balances shall be held to mitigate financial risk that can occur from unforeseen revenues fluctuations and unanticipated expenditures and provide cash flow for the City's general operations. Annual amounts may vary pending tolerable risk associated with volatility of the economy or exposure to natural risks. Fund unassigned balance should be used only for emergencies, major capital purchases or non-recurring expenditures that cannot be provided by savings in the current year.

The City targets operating reserves at 90 days (25%), but not to drop below 60 days (16.7%). Reserve requirements will be calculated as part of the annual budget process. In rare circumstances, the City will allow the reserves to fall below the target requirement providing a plan is in place to restore the funds and continue to maintain fiscally responsible levels that ensure a positive outlook in the bond ratings.

### C. Liabilities and Receivables

Procedures will be followed to maximize discounts and reduce penalties offered by creditors. Current liabilities will be paid within 30 days of receiving the invoice. Accounts Receivable procedures will target collection for a maximum of 30 days of service.

Receivables that are protected by liens on properties will be aggressively pursued through county and state filing methods. Similarly, payments due from utility system customers will also be aggressively pursued, including cut-off procedures for delinquent accounts.

### D. Capital Project Funds

Every effort will be made for all monies within the Capital Project Funds to be expended within thirty-six (36) months of receipt. The fund balance will be invested and income generated will offset increases in construction costs or other costs associated with the project. Capital project funds are intended to be expended totally and may include internal costs of labor and equipment determined to be meet the requirements of a capital asset.

### E. General Debt Service Funds

Revenues within this fund are stable, based on property tax revenues. Balances are maintained to meet contingencies and to make certain that the next year's debt service payments may be met in a timely manner. The fund balance carried over from one fiscal year to the next should not exceed one month or 1/12th annual debt service requirements, in accordance with IRS guidelines.

## F. Investment of Reserve Funds

The reserve funds will be invested in accordance with the City's investment policy. Existing non-cash investment would be exempt through retirement of the investment.

# XIII. INTERNAL CONTROLS

## A. Written Procedures

Wherever possible, written procedures will be established and maintained by the City Manager for all functions involving cash handling and/or accounting throughout the City. These procedures will embrace the general concepts of fiscal responsibility set forth in this policy statement.

The City Manager designates the Finance Director to have access to any city records in order to perform duties of safekeeping and control of assets.

To ensure proper controls, the City will maintain a transition policy, coordinated through its Human Resources and Information Technology departments. This policy will cover safety-sensitive positions that have been assigned duties related to the management of city assets.

Within the Finance Department and areas with significant cash handling, all prudent measures will be taken to ensure proper segregation of duties, within the confines of staffing resources. Finance will work with customer departments, as well as the external audit team, to develop compensating controls and actions in areas where separation is limited.

## B. Department Head Responsibility

Each Department Head is responsible for ensuring that good internal controls are followed throughout their department, that all Management directives are implemented and that all independent auditor internal control recommendations are addressed. Departments will develop and periodically update written internal control procedures.

# City of Lago Vista Investment Policy

Adopted by City Council 17 September 2020

## **CITY OF LAGO VISTA, TEXAS INVESTMENT POLICY**

### **I. POLICY**

It is the policy of the City of Lago Vista (hereinafter referred to as "City") that after allowing for the anticipated cash flow requirements of the City and giving due consideration to the safety and risk of investment, all available funds shall be invested in conformance with these legal and administrative guidelines and to the extent possible, at the optimum rates obtainable at the time of investment.

Effective cash management is recognized as essential to good fiscal management. Investment interest is a visible and material source of revenue to City funds. The City's investment portfolio shall be managed in a manner designed to optimize this revenue source, to be responsive to the public trust, and to be in compliance with legal requirements and limitations.

Investments shall be made with the primary objectives of:

- A. Safety - Preservation of Principal.
- B. Liquidity - Maintenance of Liquidity to Fund Operations.
- C. Public Trust - Prudent Investment Activities.
- C. Yield - Optimization of the Portfolio.

### **II. PURPOSE**

The purpose of the investment policy is to comply with Chapter 2256 of Title 10 of the Texas Local Government Code, "Public Funds Investment Act" (hereinafter referred to as the "Act") which requires each city to adopt a written investment policy regarding the investment of its funds and funds under its control. The Investment Policy addresses the methods, procedures and practices that must be exercised to ensure effective and judicious fiscal management of the City's funds.

### **III. SCOPE**

This Investment Policy shall govern the investment of all financial assets of the City. These funds are accounted for in the City's Annual Program of Services (budget) and the Comprehensive Annual Financial Report (CAFR) when it is prepared.

**A. Funds Included**

1. General Fund.
2. Special Revenue Funds
3. Capital Project Funds
4. Enterprise Funds
5. Trust and Agency Funds - To the extent required by law or existing contract to be kept segregated and managed separately.
6. Debt Service Funds - Including reserves and sinking funds, to the extent not required by law or existing contract to be kept segregated and managed separately.
7. New Funds - Created by the City, unless specifically exempted from this Policy by the City Council or by law.

**B. Funds Excluded**

This Policy shall not govern funds that are managed under separate investment programs. Such funds currently include the City's participation in the Texas Municipal Retirement System (TMRS) and any deferred compensation programs, including Nationwide and the ICMA-RC 457, administered for the benefit of city employees by outside agencies. The City shall maintain responsibility for these funds only as required by State Law, City Charter or Code of Ordinances.

**IV. INVESTMENT OBJECTIVES**

The City shall manage and invest its cash with four primary objectives listed in the order of priority as follows: safety, liquidity, public trust, and yield

(expressed as optimization of interest earnings). The safety of the principal invested always remains the primary objective. All investments shall be designed and managed in a manner responsive to the public trust and consistent with State and local law.

The City shall maintain a comprehensive cash management program which includes collection of accounts receivable, vendor payments in accordance with invoice terms, and prudent investment of available cash. Cash management is defined as the process of managing monies in order to ensure maximum cash availability and optimum yield on short-term investment of pooled idle cash.

A. Safety (PFIA 2256.00S(b)(2))

Safety of principal is the foremost objective of the investment program. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio. The objective will be able to mitigate credit and interest rate risk.

1. Credit Risk - The City will minimize credit risk, the risk of loss due to the failure of the issuer or backer, by:
  - a. Limiting investments to the safety types of securities.
  - b. Pre-qualifying the financial institutions and broker/dealers with which the City will do business.
  - c. Diversifying the investment portfolio so that potential losses on individual securities will be minimized.
2. Interest Rate Risk - The City will minimize the risk that the market value of securities in the portfolio will fall due to changes in interest rates, by:
  - a. Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity.
  - b. Investing operating funds primarily in shorter-term securities, bank deposits, money market mutual funds or local government

investment pools.

- c. Diversifying maturities and staggering purchase dates to minimize the impact market movements over time.

**B. Liquidity (PFIA 2256.005 (b)(2))**

The investment portfolio shall remain sufficiently liquid to meet all operating requirements that may be reasonably anticipated. This is accomplished by structuring the portfolio so that securities mature concurrent with cash needs to meet anticipated demands. Because all possible cash demands cannot be anticipated, the portfolio will also be placed in bank deposits, money market mutual funds, or local government investment pools that offer same day liquidity for short-term funds.

**C. Public Trust**

All participants in the City's investment process shall seek to act responsibility as custodians of the public trust. Investment Officers shall avoid any transaction which might impair public confidence in the City's ability to govern effectively.

**D. Yield (Optimization of Interest Earnings) (PFIA 2256.005(b)(2))**

The investment portfolio shall be designed with the objective of attaining a market rate of return throughout budgetary and economic cycles, taking into account the investment risk constraints and liquidity needs. Return on investment is of secondary importance compared to the safety and liquidity objectives described above. The core of investments is limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

**V. RESPONSIBILITY AND CONTROL**

**A. Delegation of Authority (PFIA 2256.005(f))**

Management responsibility for the investment program is assigned to the City Manager with designation by him as provided in the Home Rule

Charter for the City. The Director of Finance is hereby designated as the primary Investment Officer and is responsible for establishing a system of controls to regulate the activities of investment.

No person may engage in an investment transaction or the management of funds except as provided under the terms of this Investment Policy as approved by the City Council. The investment authority granted to these Investment Officers is effective until rescinded by the City Council.

The City Council may designate by resolution one or more Investment Officers or employees as members of the Investment Advisory Committee assigned to review investment policies and procedures, investment strategies, broker/dealers, independent training sources and investment performance. Members of the Committee must demonstrate knowledge and expertise in the area of finance, investments, or cash management. If a Committee is designated, it shall elect a Chairman and the meetings shall be called as needed.

**B. Training Requirement (PFIA 2256.008)**

In order to ensure qualified and capable investment management, the Director of Finance and any other designated Investment Officers must attend ten (10) hours of training within twelve (12) months of taking office. Additionally, Investment Officers must attend investment training not less than once in a two-year period and receive not less than ten (10) hours of instruction relating to investment responsibilities. The investment training session shall be provided by an independent source approved by the Investment Advisory Committee. For purposes of this Policy, an "independent source" from which investment training shall be obtained shall include a professional organization (such as the Texas Municipal League (TML)), an institute of higher learning, or any other sponsor other than a business organization with whom the City may engage in an investment transaction. The Director of Finance and any other designated Investment Officers shall also comply with any continuing education or retraining requirement prescribed by law.

**C. Internal Controls (Best Practice)**

The Director of Finance is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the entity are protected from loss, theft or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

Accordingly, the Director of Finance shall establish a process, as part of the annual audit, for review by the external auditor to assure compliance with policies and procedures. The internal controls shall address the following points:

1. Control of collusion.
2. Segregation of duties.
3. Separation of transactions authority from accounting and record keeping.
4. Custodial safekeeping receipts records management.
5. Avoidance of physical delivery securities.
6. Clear delegation of authority to subordinate staff members.
7. Written confirmation for telephone (voice) transactions for investments and wire transfers.
7. Development of a wire transfer agreement with the depository bank or third-party custodian.

#### D. Prudence (PFIA 2256.006)

The standard of prudence to be applied by the Investment Officer shall be the "prudent investor" rule.

This rule states that "Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence,

Discretion, and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived."

In determining whether an Investment Officer has exercised prudence with respect to an investment decision, the determination shall be made taking into consideration the following:

1. The investment of all funds or funds under the City's control over which the officer had responsibility rather than a consideration as to the prudence of a single investment.
2. Whether the investment decision was consistent with the written Investment Policy of the City and that any deviation from expected outcome was reported in a timely manner to the City Manager and City Council.

#### E. Indemnification (Best Practice)

The Investment Officer, acting in accordance with written procedures and exercising due diligence, shall not be held personally responsible for a specific security's credit risk or market price changes, provided that these deviations are reported immediately and the appropriate action is taken to control adverse developments.

#### F. Ethics and Conflicts of Interest (PFIA 2256.005(I))

Investment Officers and employees involved in the investment process shall refrain from personal business activity that would conflict with the proper execution and management of the investment program, or that would impair their ability to make impartial decisions. Employees and Investment Officers shall disclose any material interests in financial/investment positions that could be related to the performance of the investment portfolio. Employees and Investment Officers shall refrain from undertaking personal investment transactions with the same individual with which business is conducted on behalf of the City.

An Investment Officer of the City who has a personal business relationship with an organization seeking to sell an investment to the

City shall file a statement disclosing that personal business interest. An investment officer who is related within the second degree of affinity or sanguinity to an individual seeking to sell an investment to the City shall file a statement disclosing that relationship. A statement required under this subsection must be filed with the Texas Ethics Commission and the City Council.

## **VI. SUITABLE AND AUTHORIZED INVESTMENTS**

### **A. Portfolio Management**

The City currently has a "buy and hold" portfolio strategy. Maturity dates are matched with cash flow requirements and investments purchased with the intent to be held until maturity. However, securities may be sold before they mature if market conditions present an opportunity for the City to benefit from the trade. Securities may be sold for the following reasons:

1. A security with declining credit may be sold early to minimize loss of principal.
2. A security swap would improve the quality, yield, or target duration in the portfolio.
3. Liquidity needs of the portfolio require that the security be sold.

### **B. Investments (PFIA 2256.00S(b)(4)(A))**

Assets of the City may be invested in the following instruments provided, however, that at no time shall assets of the City be invested in any instrument or security not authorized for investment under the Act, as the Act may from time to time be amended.

1. Authorized.
  - a. Obligations of the United States of America, its agencies or instrumentalities.
  - b. Certificates of Deposit (CD's) of state and national banks

domiciled in Texas, a savings and loan association domiciled in this state, or a state or federal credit union that has its main office or a branch office in this state that is guaranteed or insured by the Federal Deposit Insurance Corporation (FDIC) or its successor or secured by obligations in manner and amount provided by law for deposits of the investing entity.

- c. Fully collateralized direct repurchase agreements with a defined termination date secured by obligations of the United States or its agencies and instrumentalities. These shall be pledged to the City, held in the City's name, and deposited at the time the investment is made with the City or with a third party selected and approved by the City. Repurchase agreements must be purchased through a primary government securities dealer, as defined by the Federal Reserve, or a financial institution doing business in this state. A Master Repurchase Agreement must be signed by the bank/dealer prior to investment in a repurchase agreement. All repurchase agreement transactions will be on a delivery vs. payment basis. Securities received for repurchase agreements must have a market value greater than or equal to 110 percent at the time funds are disbursed.

- d. Money Market Mutual funds that are:

- (1) registered and regulated by the Securities Exchange Commission (SEC);
- (2) have a dollar weighted average stated maturity of ninety (90) days or less;
- (3) and, maintain a net asset value of \$1 for each share.

- e. Government investment pools which:

- (1) meet the requirements of Chapter 2256.016 of the Act;

- (2) are rated no lower than AAA or an equivalent rating by at least one nationally recognized rating service;
- (3) and, are authorized by resolution or ordinance by the City Council.

2. Not Authorized (PFIA 2256.009(b)(1-4)

Under no circumstances shall investments be made in interest-only or principal-only strips of obligations with underlying mortgage- backed security collateral, or in collateralized mortgage obligations with an inverse floating interest rate or a final maturity date of ten (10) years.

## VII. INVESTMENT PARAMETERS

### A. Maximum Maturities (PFIA 2256.005(b)(4)(B))

The longer the maturity of investments the greater the price volatility. Therefore, it is the City's policy to concentrate its investment portfolio in shorter-term securities in order to limit principal risk caused by changes in interest rates.

The City attempts to match its investments with anticipated cash flow requirements. Unless matched to a specific cash flow, the City will not directly invest in securities maturing greater than twenty-four (24) months from the date of purchase. Additionally, the above described obligations, certificates, or agreements may be collateralized using only those investments meeting these same criteria provided that the securities pledged for collateral may not mature more than sixty (60) months from the date of purchase or pledge.

Because no secondary market exists for repurchase agreements, the maximum maturity shall be 120 days.

Each Fund portfolio will have a weighted average maturity of twelve (12) months or less. This dollar weighted average maturity will be calculated using the stated final maturity dates of each security.

B. Diversification (PFIA 2256.005(b)(3))

The City recognizes that investment risks can result from issuer defaults, market price changes or various technical complications leading to temporary illiquidity. Risk is controlled through portfolio diversification that shall be achieved by the following general guidelines.

1. Limiting investments to avoid overconcentration in securities from a specific issuer or business sector (excluding U. S. government securities).
2. Limiting investment in securities that have higher credit risks.
3. Investing in securities with varying maturities.
4. Continuously investing a portion of the portfolio in readily available funds such as bank deposits, local government investment pools, money market mutual funds or overnight repurchase agreements to ensure that appropriate liquidity is maintained in order to meet ongoing obligations.

The following maximum limits, by instrument, are established for the City of Lago Vista portfolio:

1.	U. S. Treasury Securities	100%
2.	Agencies and Instrumentalities	85%
3.	Certificates of Deposit	100%
4.	Repurchase Agreements*	20%
5.	Money Market Mutual Funds	50%
6.	Authorized Pools	100%
7.	Depository Bank	100%

\*Excluding flexible repurchase agreements for investment of bond proceeds.

## **VIII. INVESTMENT STRATEGY BY FUND TYPE**

### **A. Operating Funds and Commingled Funds Containing Operating Funds**

Operating Funds will have as their primary objective to support the goals of the Investment Policy on these funds for safety and assure that cash flows are matched with adequate liquidity while obtaining reasonable market yields. This will be accomplished by purchasing quality, short-term securities in a laddered structure or utilizing other liquid alternatives.

The dollar weighted average will be 180 days or less to accomplish this goal. The portfolio shall be diversified to protect against credit and market risk in any one sector. No security will be purchased with maturity over eighteen (18) months. Operating fund reserves or fund balances shall only be invested in securities that have a maximum maturity of twelve (12) months.

### **B. Debt Service**

Investment strategies for debt service funds shall have as the primary objective the guarantee of investment liquidity adequate to cover the debt service obligation on the required payment date. Investment will be made that will promise safety of principal and liquidity first and yield and diversification second. Securities purchased will not have maturity dates that exceed the next debt service payment date until the next debt service payment is fully funded and in no instance will have a maximum weighted average maturity greater than six (6) months.

### **C. Debt Service Reserves**

Investments will have as the primary objective the ability to generate a dependable revenue stream to the appropriate debt service fund within the limits set forth by the bond ordinance or debt covenants specific to each individual bond issue.

Since this is one of the highest priorities of the City, securities with the highest safety will be chosen. Securities will be chosen for their maturity dates and not require the highest degree of diversification.

Reserve funds will purchase securities carrying the optimum yield available within the desired maturity and quality range, with a maximum weighted average maturity of twelve (12) months.

#### **D. Capital Project and Special Purpose Funds**

These funds will have as their primary objective to ensure that anticipated cash flows are matched with adequate investment liquidity. No funds will be invested longer than the related anticipated expenditures.

These portfolios should have liquid securities to allow for unanticipated project expenditures or accelerated project outlays due to a better than expected or changed construction schedule. The dollar weighted average life of the portfolio should match the weighted average life of the expenditures. Funds invested for capital projects may be from bond proceeds that are subject to arbitrage rebate regulations.

The City will have an arbitrage rebate calculation performed annually to determine the income, if any, that has exceeded the arbitrage yield of bonds. Any positive arbitrage income will be rebated to the Federal Government according to arbitrage regulations. A secondary objective of these funds is to achieve a yield equal to or greater than the arbitrage yield on the applicable bond.

### **IX. SELECTION OF BANK DEPOSITORY, BROKER/DEALERS, AND INVESTMENT ADVISORS**

#### **A. Depository (Chapter 116, Texas Local Government Code)**

At least every five (5) years, as allowed by State Law, a Depository shall be selected through the City's banking services procurement process, which shall include a formal request for proposal (RFP). The term of said banking services shall be for a maximum of an initial three (3) year term, with options to renew for either one or two-year terms. The

selection of a depository will be determined by competitive process and evaluation of proposals will be based on the following selection criteria:

1. The ability to qualify as a depository for public fund in accordance with state and local laws.
2. The ability to provide requested information or financial statements for the periods specified.
3. The ability to meet all requirements in the banking RFP and the Investment Policy.
4. Complete response to all required items on the bid form.
5. Lowest net banking service cost, consistent with the ability to provide an appropriate level of service.
6. The credit worthiness and financial stability of the bank.

B. Brokers/Dealers (PFIA 2256.025)

The City shall select dealers reporting to the Market Reports Division of the Federal Reserve Board of New York, also known as "Primary Government Security Dealers", or regional dealers that qualify under Securities and Exchange Commission (SEC) Rule 15C3-1 (uniform net capital rule).

All financial institutions and broker/dealers who desire to become qualified bidders for investment transactions must supply the following as appropriate:

1. Audited financial statements.
2. Completed broker/dealer questionnaire.
3. Certification of having read and understood the City's Investment Policy and agreeing to comply with the Policy.

An Investment Advisory Committee must adopt and annually review a

list of qualified broker/dealers authorized to engage in investment transactions with the City.

**C. Investment Advisors**

Investment Advisors shall adhere to the spirit, philosophy, and specific terms of this Policy and shall advise within the same "Standard of Care". Selected Investment Advisors must be registered under the Investment Advisors Act of 1940 or with the State Securities Board. A contact with an Investment Advisor may not be for a term longer than two years and must be approved by the City Council, including any renewals or extensions.

**D. Competitive Bids (Best Practice)**

Competitive quotes must be taken from at least three (3) qualifying institutions for any investment transaction, other than the investment of funds in an authorized pool, money market mutual fund, or certificate of deposit through the depository bank. Investment transactions may be done orally but must be followed by electronic or written communication. Written confirmation shall be received from the financial institution or broker/dealer.

**D. Delivery Versus Payment (PFIA 2256.005(b)(4)(E))**

Securities shall be purchased using the **delivery versus payment** method with the exception of investment pools and mutual funds. Funds shall not be wired and paid until verification has been made that the safekeeping bank received the correct security. The security shall be held in the name of the City or held on behalf of the City. The safekeeping bank's records shall assure the notation of the City's ownership of or explicit claim on the securities. The original copy of all safekeeping receipts shall be delivered to the City.

**X. SAFEKEEPING OF SECURITIES**

**A. Safekeeping Agreement (Best Practice)**

The City shall contract with a bank or banks for the safekeeping of

securities either owned by the City as part of its investment portfolio or held as collateral to secure demand or time deposits.

**B. Safekeeping**

All securities owned by the City shall be held by its safekeeping agent, except the collateral for certificates of deposit in banks. The collateral for certificates of deposit or banks will be registered in the City's name, or a third- party bank in the City's name, at the City's discretion. Original safekeeping receipts shall be obtained by the Director of Finance.

**C. Collateralization (PFIA 2257.023)**

Consistent with the requirements of the Public Funds Collateral Act, it is the policy of the City to require full collateralization of all City investments and funds on deposit with a depository bank or other financial institution. In order to anticipate market changes and provide a level of security for all funds, the collateralization level will be 102% of market value of principal and accrued interest on the deposits, less an amount insured by the FDIC or FSLIC. At its discretion, the City may require a higher level of collateralization for certain collateral securities.

Securities pledged as collateral shall be held by an independent third party with whom the City has a current custodial agreement. The Director of Finance is responsible for entering into collateralization agreements with third party custodians in compliance with this Policy. The agreements are to specify the acceptable investment securities for collateral, including provisions relating to possession of the collateral, the substitution or release of investment securities, ownership of securities, and the method of valuation of securities.

A clearly marked evidence of ownership (safekeeping receipt) must be supplied to the City and retained by the Director of Finance. Collateral shall be reviewed at least monthly to ensure that the market value of the pledged securities is adequate. The City, at its sole discretion, may change the reporting frequency.

**D. Collateral Defined**

The City shall accept the following securities as collateral:

1. Obligations of the United States or its agencies and instrumentalities.
2. Direct obligations of the State of Texas or its agencies and instrumentalities.
3. Collateralized mortgage obligations directly issued by a federal agency or instrumentality of the United States, the underlying security for which is guaranteed by an agency or instrumentality of the United States.
4. Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized rating firm not less than "A" or its equivalent with a remaining maturity of ten (10) years or less.
5. A surety bond issued by an insurance company rated as to investment quality by a nationally recognized rating firm not less than "A" or its equivalent.
6. A letter of credit issued to the City by the Federal home Loan Bank.

**E. Subject to Audit**

All collateral shall be subject to inspection and audit by the Director of Finance or the City's independent auditors.

**XI. PERFORMANCE**

**A. Performance Standards**

The City's investment portfolio will be managed in accordance with the parameters specified within this Policy. The portfolio shall be designed with the objective of obtaining a rate of return through budgetary and economic cycles commensurate with the investment risk constraints and the cash flow requirements of the City.

B. Performance Benchmark (Best Practice)

The City's portfolio shall be designed with the objective of regularly meeting or exceeding the average rate of return on U. S. Treasury Bills at a maturity level comparable to the City's weighted average maturity in days. Weighted -average yield to maturity shall be the portfolio performance measurement.

## XII. REPORTING

A. Methods (PFIA 2256.023)

The Investment Officers shall prepare an investment report on no less than a quarterly basis that summarizes investment strategies employed in the most recent quarter.

The quarterly investment report shall include a summary statement of investment activity prepared in compliance with generally accepted accounting principles. This summary will be prepared in a manner which will allow the City to ascertain whether investment activities during the reporting period have conformed to the Investment Policy. The report will be provided to the City Manager and the City Council. The report will include the following:

1. A listing of individual securities held at the end of the reporting period.
2. Unrealized gains or losses resulting from appreciation or depreciation by listing the beginning and ending book and market value of securities for the period.
3. Additions and changes to the market value during the period.
4. Average weighted yield to maturity of portfolio as compared to applicable benchmark.
5. Listing of investments by maturity date.
6. Fully accrued interest for the reporting period.

7. The percentage of total portfolio which each type of investment represents.
8. Statement of compliance of the City's investment portfolio with State Law and the investment strategy and Policy approved by the City Council.

In conjunction with the annual audit, an independent auditor will perform a formal review of the quarterly reports with the results reported to the City Council (PFIA 2256.023(d)).

**B. Marking to Market (PFIA 2256.005(b)(4)(D))**

Market value of all securities in the portfolio will be determined on a quarterly basis. These values will be obtained from a reputable and independent source.

**XIII. INVESTMENT POLICY ADOPTION**

The City's Investment Policy shall be adopted by resolution of the City Council (PFIA 2256.005(e)). It is the City's intent to comply with state laws and regulations. The City's Investment Policy shall be subject to revisions to stay current with changing laws, regulations, and the needs of the City. The Policy shall be reviewed annually by the City Council and any changes or modifications must be approved by the City Council.

## Capital Improvement Plan 2020 - 2025

# CAPITAL IMPROVEMENT PLAN

5-YEAR CIP 2020-2025

APPROVED: Thursday, September 03, 2020

## **CAPITAL IMPROVEMENT PLAN**

The City updates its Capital Improvement Plan (CIP) each year. The responsibility for updating the plan and presenting it to the City Council rests with the CIP Committee (or Staff).

### ***Process***

The CIP process continues each year when Capital projects on their multiyear pass. The projects are studied and evaluated for importance and timeliness. The estimated cost, the time frame, justification, and impact on operating budgets are reviewed for conditions, estimated growth rates, the comprehensive plan, new initiatives, and economic conditions

The CIP Committee (or Staff) evaluates the CIP. Criteria include legal constraints and requirements, health and safety, project life, impact on the City's operating budget, consistency with the City Council and Management priorities, conformance with adopted plans, cost effectiveness, frequency of use and population impacted.

### ***Capital Improvement Program Definitions***

The Capital Improvement Program (CIP) is a planning and budgeting tool which provides information about the City's infrastructure needs for a twenty-year time frame. Each year, the list of projects is reviewed for need, cost and priority. New projects may be added and other projects deleted.

Generally, capital improvements are defined as physical assets, constructed or purchased, that have a useful life of ten years or longer and a cost of \$25,000 or more. The following are capital improvements included in the plan:

- a. New and expanded facilities for the community
- b. Large scale rehabilitation or replacement of existing facilities.
- c. Equipment for any public facility or improvement when first constructed or acquired
- d. The cost of engineering or architectural studies and services relative to the improvement
- d. The acquisition of land for a community facility such as park, road, sewer line, etc.

Finally, the City includes major purchases in the CIP plan. These may include major equipment, vehicles, major computer hardware and computer software that, over the life of the project, cost \$25,000 or more.

### **What are Capital Projects?**

There are two types of capital expenditures. One deals with infrastructure projects and the other with operating programs. Capital Projects, which are addressed in the CIP and budgeted within the City's Adopted Budget, generally include major fixed assets or infrastructure with long term value, such as buildings, roads, bridges, and parks; major equipment purchases (vehicles), life and capital maintenance projects. Any of these may involve some form of debt financing.

Capital projects costs include all expenditures related to the planning, design, construction and equipment necessary to bring a project on line. The costs can include reimbursement of the project manager's time.

### **Why have a Capital Improvement Program?**

The CIP provides information on the current and long-range infrastructure and equipment requirements of the City. It provides a mechanism for balancing needs and resources and for setting priorities and schedules for capital projects. It is based on needs identified through the planning process, requests needs and recommendations of City departments and the concerns of citizens and elected officials.

The CIP includes identification of the revenue sources, which will be utilized to fund capital improvements. Projects are included even if revenues are not available to fund them. These projects are prioritized and may be funded by current revenues or by debt financing, depending on the availability of funds, the nature of the project, and the policies of the Council.

Time may also be an issue with the length of a construction project, or a critical deadline being that can change year to year.

The CIP strives for efficient use of capital improvement funds by identifying CIP projects and prioritizing them according to their relative importance and urgency of need. Identification assures needed projects are known, while prioritization ensures that those projects which are most urgently needed are funded first.

### **Why a separate Capital Improvement Program?**

The Capital Improvement Program outlines long range capital improvement expenditures. Funds budgeted through the CIP for a specific project during a specific year remain with that project until the project is completed, while the operating budget terminates at the end of the fiscal year.

Each year project costs will be reviewed and additional funds may be allocated to a project which, when combined with resources carried over from the prior year, result in the continuing project budget for the new fiscal year.

### **How are projects prioritized?**

The City does not have sufficient funding to meet all of its capital needs each year. Projects are prioritized based on the effect of each project on the City's ability to meet community goals. Projects are compared on the basis of a common set of selection criteria. Priority is approved by City Council and generally based on: conformity with adopted plans and goals, impact on the City's operating budget, cost effectiveness, environmental impacts, population impacted, and frequency of use.

2019-2025 CIP UPDATE  
UTILITIES

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Impact Fee Study

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
New utility fee may take 6-9 months to complete. The new roadway impact fee will take 12-15 months to complete. \$45K for utility update impact fee was budgeted for FY-20.		Update 4 year old Impact Fee. Council approved consultant to move forward with new roadway impact and update the existing utility impact fee. We should complete an update every 5 years.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: WWTP Improvements

## PROJECT DESCRIPTION

Construction of a 72' Diameter Clarifier consisting of effluent and influent chambers, mechanical equipment, conduit, and power. Along with construction of a new chlorine contact basin

## PROJECT JUSTIFICATION

In order to keep up with growth of the city the clarifier was needed to meet future demands. The current clarifier could not be cleaned properly without shutting plant off.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Scada Improvements

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Phase 1 to install SCADA on all lift station. Phase 2 & 3 make improvements to existing scada system. This project consists of upgrading the scada system to replace radios, install mobile versions, reprogramming and panel replacements.		In order to keep from getting cited for failure to report leaking of a lift station the panel are to be upgraded to SCADA instead of the old software Microtel. However our core scada system could not handle all the new lift station and needed modifications.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Leak Detection Survey

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Leak detection has proved successful so far finding over 70 leaks. This project consist of acoustic and sonar survey of our water pipes, detect leaks, and make necessary repairs and replacements.		The City currently has issues with unaccounted for water or water loss. This year that water loss neared 40% in winter. The amount of water varies slightly from winter to summer. Closer analysis of water loss patters points to leaking pipes and faulty meter system.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Emergency Power

## PROJECT DESCRIPTION

In emergency, generators for bigger LS and water plants fixed & portable generator up to 500Kw. FEMA funding will be applied for. At this time it is unknown how much will be awarded. This first phase involves installing permanent emergency power for WTP-3. Phases (years) 2 & 3 are lift stations and WTP1 generator

## PROJECT JUSTIFICATION

Rehab all 8 Lift Station generators in case of power outage and provide emergency power for water plants. Has been pushed back due to insufficient budget funds. Some FEMA funding may be available.

FISCAL YEAR 2019-2025

PROJECT NAME: WWTP TY-1 Conversion

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Convert the sewer plant to produce type 1 effluent.		For effluent to be used as irrigation for sport fields instead of using treated water the effluent produced must be type 1 instead of type 2 which we currently produce. Only golf courses are allowed to use what the plant currently produces.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Bronco Wastewater Line Replacement

## PROJECT DESCRIPTION

Upgrade portions of pipe to a 10" and 8" gravity. Rehabilitate and replace manholes. Increase several lateral pipe sizes.

## PROJECT JUSTIFICATION

Recommended 2016-17 CIP. This pipe has had several breaks in the past. It is anticipated that the WW master plan will likely require upsizing.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Valves and FH Replacement

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Replace fire hydrants (approx. 10) and valves (approx 20). Valve replacement likely occurs as a new valve inserts without having to shut down the pipe. City will retain the services of certified contractors to insert valves.		Old out dated fire hydrants, leaking, improving valves system. May times when there is a water main leak the City staff has to let the water run, or open FH to reduce pressure resulting in large amounts of water loss.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: WTP1 Expansion

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Design Phase of Expanding the WTP1 to 4MGD, adding 2 trident units along with increasing pipe size to account for water demand, expanding building along with future phases. 2021 feasibility study to determine whether WTP1 or WTP3 should be expanded first. Study to take into account water age, intake depth, location, cost, operations, etc.		The City of Lago Vista Water Treatment Plant No. 1 (WTP-1) treats raw water pumped from Lake Travis. To meet the projected water system demands within next 3 years, the City intends to increase the maximum production capacity of WTP-1 to not less than 4 million gallons per day (MGD) in the near term.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Water System Balance Project

## PROJECT DESCRIPTION

Improvements piping/pumping to automatically balance flows between the 2 plants. The new system will be installed remotely controlled valves, piping, SCADA and electrical.

## PROJECT JUSTIFICATION

The City currently has issues with transferring the water between the two water plants. When one water plant is down the other has a difficult time pumping water to the pressure plane of the other water plant.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Meter Replacement and AMI Installation

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
The project entails replacing all meters, except the ones installed recently, and implementing automated metering infrastructure.		Like most Cities, our City is developing fast and needs to keep up with the water metering needs, reading, and availability of data. Recent testing indicates that old meters account for 30% of our water loss.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Lohman Expansion

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Expand Lohman from Dawn to Boggy to accommodate 4-lane traffic, and enough ROW for a center lane in the future. 8700' widening. Requires 40' wide ROW acquisition. Cost for which is just a placeholder at \$700K properties between 60K-\$200K per acre for which 2000' of ROW are at the higher cost.		Current Lohman from Boggy to Dawn is undersized, and congested. As the City grows there is a need for this expansion.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Boggy Ford Realignment

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Construct bypass from Lohman (at High School) to Boggy near the entrance to Draper Cove. This 2,400' bypass is anticipated to be 27' wide and require an 80' wide ROW acquisition. Because of grading and side-slopes the ROW width is higher than a normal City street		Currently with the growth this City is experiencing it is anticipated that Boggy and Lohman will require either expansion or realignment (or a bypass).

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Boggy and Highland Circle

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Construct a 150' wide traffic circle, with yield lanes to Boggy, National, and Lohman. Traffic circle will provide better flow than a traditional intersection as suggested in Transportation Plan. Project will require some ROW acquisition to the west of int.		Identified in the Transportation plan, the growth of the City will create a hazard for this intersection and lower the LOS F unless improvements are done.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: LVGC Greens Renovation

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Removal of old grass and soil down to a depth of approximately 16 inches. New drainage pipe and drain rock will be installed to improve the drainage aspect of the new putting surfaces. New soil will be install along with new sprigs that will grow into the new putting surface. Holes 3, 4, &9.		The existing putting surfaces are approx. fifty years old and double their life expectancy. The putting surfaces are thinning out, have several unappealing bare spots, and do not provide good experience to customers. New greens will provide a positive experience to our customers and improve the financials of the golf course.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: LVGC Parking Lot Renovation

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Reconfigure parking lot to remove curbs, some trees, add lighting, repave, and redo landscaping. Pending staff workload, golf course staff with the help of City street crews will repave the existing asphalt, replace all curbing in the parking, and resurface all parking spaces.		The current parking lot has broken curbs, cracked asphalt and is in need of striping. The broken curbs and cracked asphalt is a safety hazard to our customers. New asphalt and curbs will eliminate safety hazards and give our parking lot a new and fresh look.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: LVGC Irrigation System Replacement

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Replacement of existing irrigation pipe with larger main and lateral piping with PVC/HDPE and irrigation wiring, as well as the replacement of all sprinkler heads and control boxes. The irrigation system will be expanded to areas that currently don't have irrigation and give the golf course complete water coverage.		The current irrigation is approximately fifty years and is double its life expectancy. The current system is undersized and does not have the ability to put out the amount of water needed to properly irrigate the golf course. The current irrigation system has continuous issues and repairs are needed on a daily basis.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: City Hall /Library Expansion

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Expand City Hall with more offices and meeting spaces. New building will add 70'x70' library space and approx. 100'x35' city hall expansion.		The library has requested more space for their programs. City Hall does not have adequate office and meeting space. Several substandard offices were created for City directors.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: New Airport Lounge/Restaurant

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
This project is to also be located at the north side of the airport entrance by the current lounge. The building is metal with restaurant and lounge on second floor, hangar and mechanic bottom floor.		Airport Advisory committee has implied such a need in previous discussions. The need is for an actual lounge, restaurant, perhaps plane mechanic, and covered hangar space.

PROJECT NAME: Police Department Expansion

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Expand building by another approx. 25', widen and reconfigure parking layout. Add more covered parking for patrol cars.		When PD was created, a covered area in the back was constructed as such to create additional expansion. This expansion is due to City and PD growth.

## CAPITAL IMPROVEMENT PROGRAM

FISCAL YEAR 2019-2025

PROJECT NAME: Community Center

PROJECT DESCRIPTION		PROJECT JUSTIFICATION	
Detail and cost TBD. Original plan was to relocate City Hall and use existing for community center. However, City Hall is being remodeled and may not be relocated for the foreseeable future.		Renovate Existing City Hall for a new Performing Arts building. This project was brought forth by Mayor as a community need.
