

Monthly report for July.

In July, the Parks and Recreation staff had a busy month. At the upper Bar K sports complex, they expanded the mowed area around the playground to provide more play space, updated signage, and replaced flags at Veterans Park. At the aquatic center, the pool received a successful re-plastering, and the toys were reinstalled. At Rusty Allen Airport, the staff replaced the runway lights, carried out routine mowing, and repaired and replaced a broken door. On the golf course, maintenance work included preparing greens #5 and #6 for sod repair, cleaning plugged sprinkler heads, fertilizing greens, and performing general upkeep.
