

Monthly report for Parks and Recreation

August was a hectic month for the Parks and Recreation Department, with a range of repairs undertaken. At Sunset Park, staff fixed the home plate on the baseball field and repaired a valve in the restroom. At Veterans Park, military flags were replaced, while a door in the pilots' lounge at the airport was also replaced. Additionally, some mowing equipment was serviced. Following the recent resignation of our maintenance employee, the Director is now actively seeking a replacement.
