For going above and beyond to wear multiple hats and provide excellent support for the employees!

## Winter Sewer Averaging BEGINS!

Your actual water usage during the months of November 2024 - February 2025 are reviewed to determine your sewer rate for your monthly bill. The lowest two months of metered water usage of those four are then averaged to determine your new sewer rate. These months are deliberately chosen because they tend to have the lowest consumption for most customers. The end result is that those who are conservative in their usage will pay less for sewer services. Those who use more water and place a greater burden on the treatment facilities will pay more. New winter averaging rates will be calculated in April of 2025 and due on your bills beginning in May 2025.

## November at the Library

The Library will be closed on the following days:
